American national in Japan since 2023 | Eligible for Engineer/Specialist in Humanities visa transfer

EXPERIENCE

California State University, San Bernardino — IT Technician

January 2021 – January 2023

- Managed and deployed macOS endpoints across department computer labs using JAMF, including imaging, configuration, software distribution, and lifecycle replacement
- Resolved a wide range of incidents including OS issues, account/permissions troubleshooting, peripheral failures, and software installs; escalated complex network or authentication issues to central IT

JET, Japan — Assistant English Teacher

January 2023 – Present

- Teach English at public schools in rural Aomori while working daily in a Japanese-language environment
- Adapt technical and educational content for non-native English speakers across varying proficiency levels, requiring clear written and verbal communication

National AJET, Japan — Webmaster (Volunteer)

April 2025 – Present

- Maintain and administer the National AJET WordPress site for a 5,000+ member organization
- Handle plugin updates, security patching, and routine site maintenance
- Troubleshoot hosting and reliability issues; coordinate technical changes with the AJET board

PROJECTS

Takko Town English Guide — takkotaco.com

- Built a full-stack web platform featuring real-time multiplayer games (up to 50 players/room), interactive GIS map of Takko, and browser-based ML face detection
- Deployed serverless backend on Cloudflare Workers with SQLite-backed Durable Objects for stateful game rooms; WebSocket-based real-time communication

Bloggy Doggy — bloggydoggy.com

- Built edge-first blog with custom REST API serving from Cloudflare Workers and D1 (serverless SQLite) for likes/quiz features
- Custom Web Components (no framework), multilingual i18n system supporting English/Simple English/Japanese
